Subject: Google Alert - in situ uranium

News

1 new result for **in situ uranium**

[Powertech plugs test wells, but plans for **uranium** mine still on drawing board](#)

The Coloradoan

The wells were among 34 monitoring wells the company drilled as part of preparations to build its planned **in situ** leach **uranium** mine about 15 miles northeast of Fort Collins between Wellington and Nunn. The wells were “superfluous, and we closed them,” ...
